

Thank You for hosting an event!

We're sure your event will be a huge success, and we're really excited that DFA members just like you have come together today to help unite the Democratic Party and have a little FUN!

DFA is working to build our national movement and network with progressive activists. We are a member-driven organization and the resources you create in both volunteer time and money make it all possible. Please ask your attendees to contribute even a small amount to move America forward and help elect progressive candidates up and down the ticket.

Thank you for all your hard work!
