## How Can We Flip the Switch

### A Forum Sponsored by Northside Democracy for America

Politicians campaign on it, the technology already exists, and it's abundant and free; it's nature's solution to global warming and rising oil prices. Why we haven't we made the switch to solar and wind power, and what can WE do to make it happen?

#### Speakers:

- Michael R. Johnson, Executive Director of the Illinois Solar Energy Association
- Kevin Borgia, Executive Director of Wind for Illinois
- William Haas from the Illinois Dept. of Commerce and Economic Opportunity, Bureau of Energy and Recycling.

**Tuesday, July 29th, 7pm**
