QUESTION 1:

The initial US lead coalition’s military campaign was dominating. Regrettably, just as the Administration has no significant domestic policy in the United States, likewise, there has been no effective domestic policy to foster a lasting peace in Iraq. We need to improve the lives of average Iraqis with reliable electricity and employment opportunities. Oil revenues could help fund needed initiatives.

QUESTION 2;

We must move away from a employer based health insurance system. When a Single Payor health care system is in place we will see an explosion of entrepreneurship and an expansion of small business opportunities.

QUESTION 3:

We must assure fair elections with paper ballot back up.

QUESTION 4:

The Maine and Arizona models are examples of good clean money initiatives
